## BEGINNER 1

### ARE YOU NEW TO FITNESS AND NUTRITION?

Forever's F.I.T. programme will provide you with the **foundation** and **inspiration** needed to achieve your **transformation** goal.

*F15 Beginner* forms part of Forever F.I.T. and this level teaches you the basics of fitness.

This hassle-free pack comes with all of the products you need to complete a fifteen-day programme, and this booklet is designed to guide you through a routine that is both attainable and flexible.

You'll learn customised body workouts, fundamental movements and basic cardio, and you'll discover healthy recipes (P.34), exercise ideas, weight management products and lifestyle tips. All of this will help you to build a fitness foundation and form positive weight management habits.

*F15 Beginner* has been split into two fifteen-day regimes so that you can choose the one that best suits your lifestyle. Look closely at each supplement and meal schedule and exercise plan (*F15 Beginner 1*: P.7 and P.15, *F15 Beginner 2*: P.25 and P.28). Each regime has a slightly different calorie distribution and they also offer different exercise choices, so it's important to consider how you will cope with each before you begin. If you are a complete fitness novice, we suggest you follow *F15 Beginner 1*.

**NOT SURE HOW  
TO PERFORM SOME  
OF THE EXERCISE  
ROUTINES?**

**CHECK OUT OUR  
USEFUL VIDEO  
TUTORIALS ON  
[foreverfit15.com](http://foreverfit15.com)**

Please note:  
if you want to  
complete both parts  
(*F15 Beginner 1*  
and *F15 Beginner 2*)  
you will need to  
purchase additional  
products.

## TAKE EACH PRODUCT AS DIRECTED IN THE SUPPLEMENT SCHEDULE FOR MAXIMUM RESULTS!

### FOREVER ALOE VERA GEL

*Forever Aloe Vera Gel is a digestive aid.*

### FOREVER FIBER

*Forever Fiber is designed for digestive health and is high in fibre and low in saturated fat.*

### FOREVER THERM

*Forever Therm is formulated with vitamins to provide supplemented support whilst achieving your diet and lifestyle goals.*

### FOREVER GARCINIA PLUS

*Forever Garcinia Plus contains the prized Asian culinary fruit Garcinia. It is high in chromium which helps with healthy macronutrient metabolism and also contributes to the maintenance of normal blood glucose levels.*

### FOREVER LITE ULTRA

*Forever Lite Ultra is available in chocolate and vanilla flavours and provides 24g of protein per serving, plus many other vitamins and minerals.*

## BE MINDFUL OF YOUR HEALTH

Please note that the F.I.T. programme (C9 and F15) should not be taken by anyone who has diabetes, kidney disease, epilepsy, heart disease or dementia. It should not be followed during pregnancy or when breastfeeding, and it is not suitable for children.

If you have any medical condition or are taking medication, please consult your doctor before starting the programme.

This programme may not be suitable if you are obese or underweight. Check your BMI and consult your doctor before changing your diet and exercise regime.

Please refer to the foods supplement kit packaging for further information on usage.

# LET'S GET STARTED.

## FOLLOW THESE TIPS TO ACHIEVE YOUR BEST RESULTS.

1

### **WEIGH AND MEASURE YOURSELF BEFORE YOU BEGIN.**

Record your measurements in this booklet and calculate the difference at the end of *F15*.

2

### **RECORD YOUR DAILY EXERCISE, FOOD INTAKE, AND HOW YOU FEEL WHILE ON *F15*.**

Accountability will help prevent you from deviating from the programme.

3

### **DRINK PLENTY OF WATER.**

Approximately 3 litres a day for men and 2 – 2½ litres a day for women.

4

### **PUT DOWN THE SALTSHAKER.**

Salt contributes to fluid retention.  
Flavour foods with herbs and spices instead.

5

### **AVOID FIZZY DRINKS AND CARBONATED BEVERAGES.**

Carbonation promotes bloating. Drinking fizzy drinks also adds unwanted calories and sugar.

## KNOW THAT YOU CAN DO THIS.

**Forever  
Aloe Vera Gel**

**2X 1 litre  
bottles**

**Forever  
Lite Ultra**

**1X pouch  
(15 servings)**

**Forever  
Garcinia Plus**  
**90 softgels**

**What your  
F15 pack  
includes:**

**Forever Therm**  
**30 tablets**

**Forever Fiber**

# BODY WEIGHT & MEASUREMENTS.

## HOW TO MEASURE:

**CHEST** / Measure under your armpits around the front of your chest with your arms relaxed at your sides.

**BICEPS** / Measure half way between your armpit and elbow with your arm relaxed at your side.

**WAIST** / Measure your natural waist – approximately 2" above your hips.

**HIPS** / Measure around the widest part of the hips and buttocks.

**THIGHS** / Measure at the widest point of the thigh including the highest point on your inner thigh.

**CALVES** / Measure the thickest part of your calf, typically about half way between the knee and the ankle, while your calves are relaxed.

## BEFORE *F15 BEGINNER* MEASUREMENTS:

A great way to drink your daily aloe is to mix it with *Argi+* (sold separately). *Argi+* provides 5g of L-Arginine per serving plus vitamin C, which contributes to the reduction of tiredness and fatigue. Give your body the energy boost it needs to keep going all day long!

**Turn to P.15 for  
the recommended  
workout schedule.**

Mix **120g** of *Forever Aloe Vera Gel*, **1 scoop** of *Argi+* and water to taste. Shake with ice for a delicious way to enjoy the benefits of aloe.

# WHEN IT COMES TO WEIGHT LOSS, CHANGING YOUR MIND IS AS IMPORTANT AS CHANGING YOUR BODY.

Without learning new habits, any weight that you lose could be gained back if you slip back into the old habits that caused you to gain weight in the first place. The best place to get started is in the kitchen.

Learning about fuelling your body the right way and the importance of protein, carbohydrates and fat can make a huge impact on your journey to looking and feeling better!

## THE POWER OF PROTEIN.

Protein is a big player in our health and wellness and makes up much of your muscles, brain, nerves, hair, skin and nails.

### DID YOU KNOW...

...as you exercise,  
high protein foods help  
to build muscle?

**As you lose weight,  
the high protein foods  
will help to maintain  
muscle.**

...*Forever Lite Ultra*  
is a quick, easy and  
delicious way to increase  
your protein intake?

**Protein contributes  
to the growth and  
maintenance of  
muscle mass.**

### F.I.T. TIP

STAY AWAY FROM WHITE BREADS, CHIPS AND OTHER PROCESSED CARBOHYDRATES (OFTEN WHITE OR LIGHT IN COLOUR) AND FOCUS ON INTRODUCING COLOURFUL OPTIONS TO YOUR PLATE INSTEAD. THIS WILL ENSURE THAT YOU'RE CHOOSING NUTRIENT-DENSE, SATISFYING FOODS!

# BASAL METABOLIC RATE (BMR) AND ACTIVE METABOLIC RATE (AMR).

Everybody's body is different, and for our bodies to function correctly on a daily basis (even while sleeping) we need to 'fuel' it. We do this by consuming calories, but first it is important to work out how many calories you require – you can do this by working out your BMR and AMR.

Basal metabolic rate (BMR) is the energy required to maintain the body's normal function when at rest (this will vary depending on your gender, weight and age). It contributes to around 75% of the total energy expenditure and is determined in part by the amount of muscle in the body; this is why we aim to have a good amount of muscle to fat ratio. When muscle is lost, for example through extreme starvation diets, BMR will drop. This would ultimately mean that a lower calorie (kcal) requirement is needed.

Your AMR is your active metabolic rate, and the one you can influence the most; the more active you are, the more energy you will use. First of all work out how active you are going to be based on the information below. Multiply your BMR by the figure that corresponds to your exercise level and you will be left with your AMR.

## MEASURING YOUR BMR.\*

\*This is the Harris-Benedict equation revised by Mifflin and St Jeor in 1990.

### WOMEN:

BMR =

$$(10 \times \text{weight in kg}) + (6.25 \times \text{height in cm}) - (5 \times \text{age in years}) - 161$$

### MEN:

BMR =

$$(10 \times \text{weight in kg}) + (6.25 \times \text{height in cm}) - (5 \times \text{age in years}) + 5$$

## MEASURING YOUR AMR.

Little or no exercise = BMR x 1.2 +

Lightly active (1-3 days per week) = BMR x 1.375 +

Moderately active (3-5 days per week) = BMR x 1.55 +

Very active (5-6 days a week) = BMR x 1.725 +

Extra active (6-7 days a week) = BMR x 1.9 +

E.g. if your BMR is 1,500 and you are lightly active then your AMR is 1,500 x 1.375. This equals 2,062.5 calories.

To lose weight = eat less than your AMR but above your BMR +

To maintain weight = eat the same amount of calories as your AMR +

To gain weight = consume more calories than your AMR +

PLEASE NOTE: EATING LESS THAN YOUR BMR AND/OR LESS THAN 700KCAL BELOW YOUR AMR REGULARLY WILL CAUSE YOUR BODY TO THINK IT IS GOING INTO STARVATION MODE. THIS WILL LOWER YOUR METABOLISM AND YOUR BODY WILL USE LEAN MUSCLE INSTEAD OF FAT AS FUEL.

## FIGHTING CARB-O-PHOBIA.

With all of the confusing information available on carbohydrates these days, you may find yourself thinking you should avoid them all together. In reality, there are good carbs, like oats, that slowly release energy and are a good source of fibre; a good source of fibre provides you with energy for a longer amount of time.

On the other end of the spectrum are the carbohydrates that are largely stripped of their original nutrition and fibre. These are digested quickly and cause a rapid rise in blood sugar, leaving you hungry and with low energy shortly after you eat them.

**Here are some great sources for healthy carbohydrates:**

- + Fruits
- + Vegetables
- + Black beans
- + Chickpeas
- + Lentils
- + Brown rice
- + Wild rice
- + Oatmeal
- + Bulgur wheat
- + Rolled oats
- + Quinoa
- + Whole wheat
- + Whole grain barley

## FINDING F.I.T. FATS.

Just like carbohydrates, there is a lot of confusing information about fats and how they fit into your diet. Over the last few years, the health and fitness community has largely unified on the benefits of monounsaturated and polyunsaturated fats.

**CONSIDER ADDING  
THESE FATS INTO YOUR  
DIET IN MODERATION:**

**Monounsaturated  
Fats**

- + Avocados
- + Olives
- + Nuts (almonds, peanuts, macadamia nuts, hazelnuts, pecans, cashews)
- + Natural peanut or almond butter (containing just nuts and salt)

**Polyunsaturated  
Fats**

- + Walnuts
- + Seeds (sunflower, sesame, pumpkin, flax, chia)
- + Fatty fish (salmon, mackerel, tuna, herring, trout, sardines)
- + Sources of soy milk and tofu

**UNHEALTHY TRANS  
FATS ARE ONE OF  
THE BIGGEST CULPRITS  
IN WEIGHT GAIN. THESE  
ARE OFTEN FOUND  
IN BAKED GOODS,  
PACKAGED SNACKS  
AND FRIED FOODS.**

**F.I.T. TIP**

While good fats are healthy, moderation is key. Generally try to limit yourself to one or two servings of these foods a day.

# FOREVER LITE ULTRA SHAKE RECIPES.

In *F15 Beginner 1*, drink your shake for breakfast to get your day started. In *F15 Beginner 2*, drink your shake after your workout or for a mid-day boost.

Keep an eye on how many calories you're consuming. If you choose a high-calorie shake, you will need to increase your exercise levels.

### F.I.T. TIP

Create your own shake by combining **1 scoop** of **Forever Lite Ultra** with **240-300ml** of skimmed, almond, coconut, soy or rice milk, **90g-180g** of fruits and vegetables, **1 tablespoon** of healthy fats like chia seeds, flax seeds, nut butter, avocado or coconut oil, and ice, water or green tea.

Blend together and serve.

Feel free to substitute the milk in these recipes with skimmed, rice milk, unsweetened almond milk, unsweetened coconut milk or unsweetened soy milk.

Creating your own shake can be fun but it is important to keep an eye on the calories that you're putting in. We recommend 300kcal for women and 450kcal for men so keep this in mind when combining ingredients.

# F15 BEGINNER 1 WORKOUT SCHEDULE.

## LET'S GET MOVING.

The *F15 Beginner* programme combines three body-weight workouts that you can do anywhere and cardio at your own pace to get you moving! No set up, no confusing gym equipment, no excuses.

**REMEMBER:** Always warm up and cool down before and after exercising; be aware that training too hard can lead to injury. Listen to your body and if you feel pain, stop. If you have existing injuries or pain, consult your doctor before starting this or any exercise regime.

# COMMIT TO CARDIO.

Cardio refers to any movement that helps increase heart rate and circulation. Cardio exercise can help boost metabolism, help support a healthy heart and can help you recover more quickly after strenuous exercise.

Commit to doing **two-to-three days** of cardio activity per week. These sessions should be **30-60 minutes** in length and ideally performed without interruption.

However, if you are in a time crunch, you can break cardio into **15-minute** sessions. Find an intensity that feels like a five-to-seven on a scale of ten, with ten being extremely difficult.

## RECOMMENDED CARDIO EXERCISES INCLUDE:

- Walking +
- Jogging +
- Climbing stairs +
- Cross-trainer +
- Rowing +
- Swimming +
- Yoga +
- Biking +
- Hiking +
- Aerobics +
- Dancing +
- Kickboxing +

# WARM UP.

## YOUR BODY IS A MACHINE.

It's important to prep before you throw yourself into a workout. Warming up allows your joints to move through their full range of motion and can help to improve the quality of your workout while reducing your chances of injury. Think of it as a dress rehearsal for the main event. Use this warm up before each exercise in the *F15 Beginner* programme.

# COOL DOWN.

Save a few minutes at the end of each workout to cool down. This allows your heart rate to transition easily into recovery, while breathing and blood pressure come back to normal. It also helps improve flexibility and helps prevent injury. The cool down should be performed fluidly as a series of movements rather than individual exercises.

# F15 BEGINNER WORKOUT ONE

This workout introduces ten foundational moves that utilise lower body, upper body, core, balance and some unilateral movements. Each exercise will be performed for **30 seconds** with a **5-second** transition between exercises.

Once you have finished all ten exercises, recover for **60 seconds** and start again with a goal of completing two-to-three rounds total!

**30**  
seconds  
each

**BEGIN ON  
EITHER  
LEG**

- + Alternating lunges
- + Alternating knee lifts
- + Alternating butt-kickers
- + Squats
- + Bird-dog left
- + Bird-dog right
- + Pushups
- + Superman
- + Reverse crunches
- + Inverted bike

**Rest 60  
seconds**

**Repeat  
2-3 times  
for full  
workout!**

## F.I.T. TIP

If you're new to exercise or it has just been a while since your last workout, focus on completing one full round and mastering the correct form. Once you have it down, on your second or third workout, go for round two!

# F15 BEGINNER WORKOUT TWO

This workout introduces ten exercises that combine upper body, lower body and core. Many of the exercises require rotational movements that will also activate your core and balance.

Each exercise will be performed for **45 seconds** with a **10-second** transition between exercises. Once all ten exercises have been completed, recover for **60 seconds** and start again with a goal of completing two-to-four rounds total!

**45**  
seconds  
each

- + Squat reaches
- + Woodchops high left to low right
- + Woodchops high right to low left
- + Alternating side lunges
- + Side-to-side squats
- + Plank to side plank left
- + Kneeling tricep pushups
- + Plank to side plank right
- + Glute bridges
- + Core roll-ups

Rest **60**  
seconds

Repeat  
**2-4 times**  
for full  
workout!

## F.I.T. TIP

Challenge makes changes!  
Completed two rounds last time?  
Take on three this time to get  
stronger and take the next step  
on your path to looking and  
feeling better.

# F15 BEGINNER WORKOUT THREE

This workout introduces ten exercises that incorporate hip rotation and some yoga style strength training. These movements are slower with more focus on balance and core stabilisation.

Each exercise will be performed for **60 seconds** with a **10-second** transition between exercises. Once all ten exercises have been completed, recover for **60 seconds** and start again with a goal of completing a total of three rounds!

60  
seconds  
each

- + Sumo squats
- + Downward dog to plank
- + Balancing deadlifts left
- + Balancing deadlifts right
- + Triangle abs left
- + Triangle abs right
- + Lunges left
- + Lunges right
- + Boat pose
- + Supine twist

Rest 60  
seconds

Repeat  
3 times  
for full  
workout!

## F.I.T. TIP

Take your workout to the next level by really feeling your body move. The goal in this workout shouldn't be higher repetitions, but rather increasing the quality of the movement.

# CONGRATULATIONS ON COMPLETING FOREVER F15 BEGINNER 1!

**KEEP MOVING!**  
**F15 BEGINNER 2 IS THE  
NEXT STEP ON YOUR  
JOURNEY TO LOOKING  
AND FEELING BETTER.**

Don't forget to record your weight and measurements on **P.6** to track your progress. This is always a great time to re-evaluate your goals and make sure you're pushing for what you want.

## **ALREADY MET ONE OF YOUR GOALS? AMAZING WORK!**

Consider the progress you're making and the changes you're seeing in your body and set a new goal to challenge yourself!

# F15

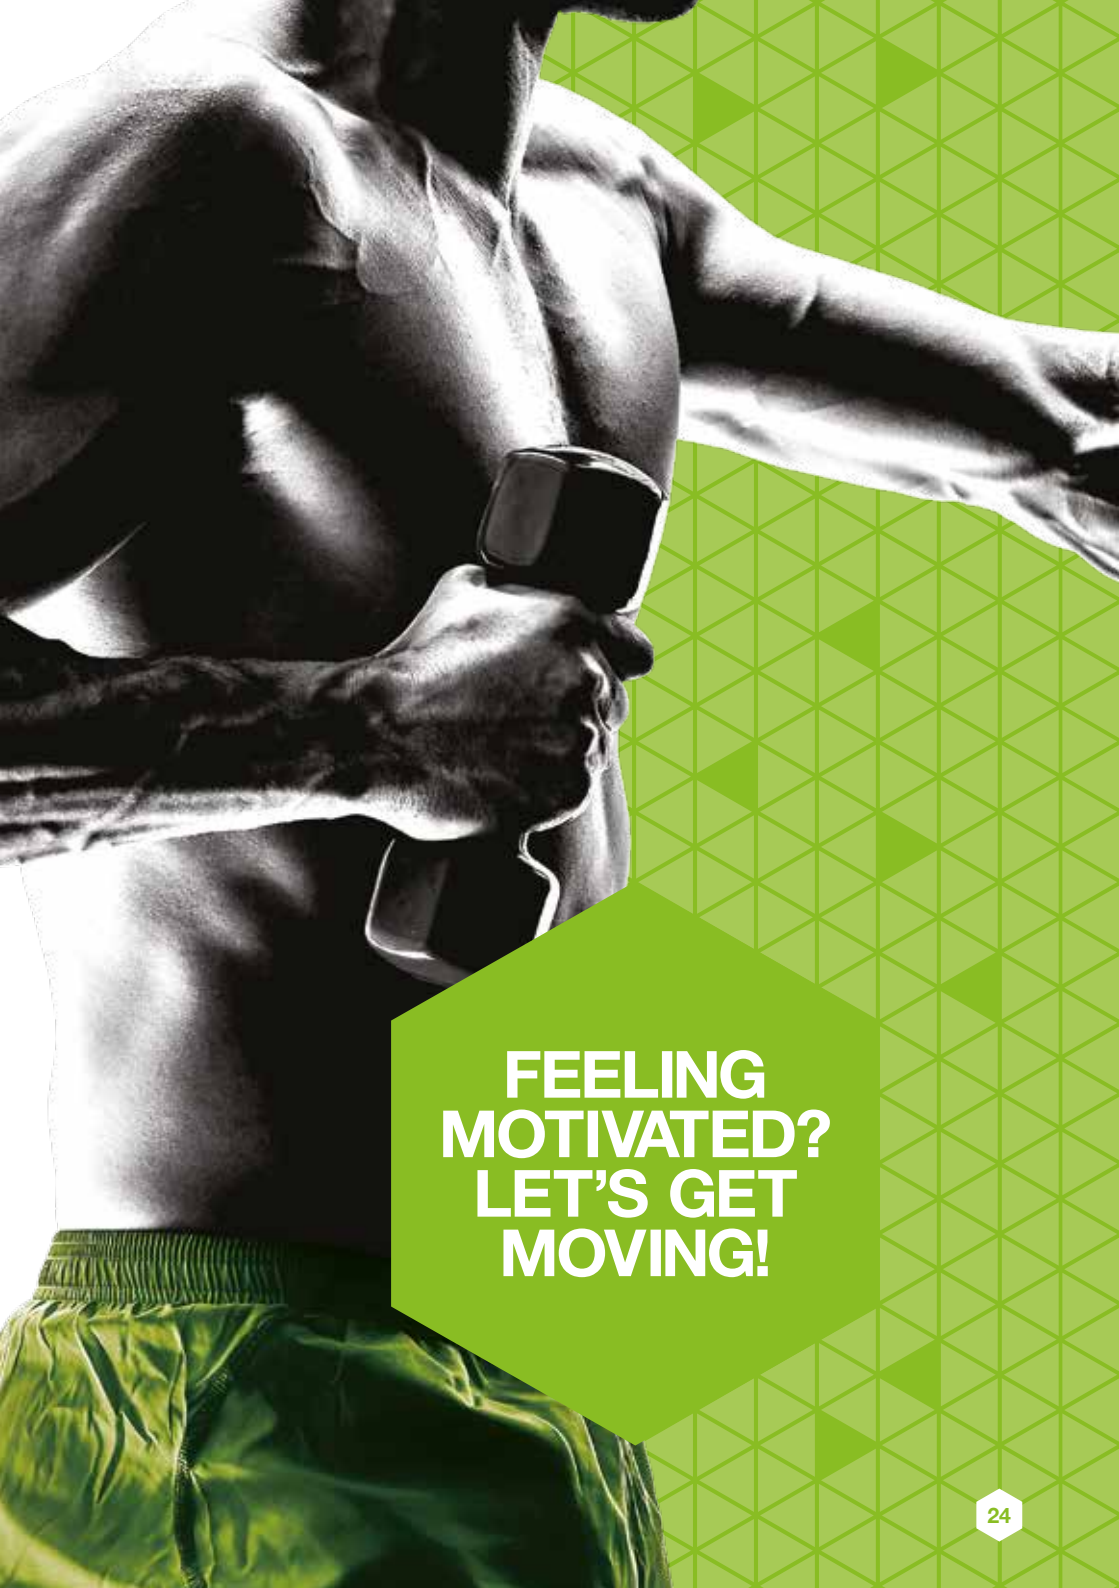

## BEGINNER 2

# TAKE THE NEXT STEP.

In *F15 Beginner 1*, you learned how to begin building healthy habits and that fitness and nutrition are important parts of looking and feeling better. Take that knowledge to the next level with *F15 Beginner 2*.

If you haven't already, make sure you record your weight and measurements on **P.6** and take progress photos to track your results. Review your goals and focus on what you'll need to do during the *F15 Beginner 2* programme to get there.

## **F.I.T. TIP**

Water might not seem like the biggest player in your weight loss journey, but it can have a significant impact. Remember to drink at least 2 litres of water every day during the *F15* programme.

**Turn to P.28 for  
the recommended  
workout schedule**

# BUILD A BETTER BREAKFAST.

We've all heard the phrase 'breakfast is the most important meal of the day'. Eating a healthy breakfast can set the tone for the rest of your day and help propel you towards your weight loss goals. In the *F15 Beginner 1* programme, we talked about the importance of protein, carbohydrates and healthy fats. Enjoy a balanced breakfast including each of these to start your day off right and avoid overeating or snacking mid-morning.

## **SOME PEOPLE WHO SKIP BREAKFAST FIND THEY FEEL LESS FOCUSED AND TEND TO OVEREAT LATER BECAUSE THEY FEEL OVER-HUNGRY.**

It might seem like skipping breakfast is an easy way to cut calories, but this can actually add up to some considerable steps in the wrong direction. If you feel too sluggish to exercise and overeat later, you're much worse off than if you have a healthy breakfast and feel energised to workout and eat a balanced dinner.

# F15 BEGINNER 2 WORKOUT SCHEDULE.

## TAKE YOUR FITNESS TO THE NEXT LEVEL.

The *F15 Beginner 2* programme builds on the three bodyweight workouts that you've already learned and introduces exciting new cardio trainings to get you moving!

THESE SUPER-EFFICIENT WORKOUTS CAN BE DONE ALMOST ANYWHERE WITHOUT ANY SPECIALISED EQUIPMENT.

# WARM UP.

In *F15 Beginner 1*, you learned the importance of warming up to give you the best quality workout and lowest possible risk for injury. Use those foundational moves before each *F15 Beginner 2* workout to get started. Need a refresher? Review the warm up exercises on **P.17** or watch the video at [foreverfit15.com](http://foreverfit15.com).

## CRANK UP THE CARDIO.

While there are different opinions on the best way to workout for weight loss, one thing is universal – the need for cardio exercise. In *F15 Beginner 2*, we are going to crank up the volume and add our own calorie-busting workouts.

This workout alternates five **1-minute** exercises with **2-minute** steady-state exercises to boost your heart rate and keep you moving!

**Choose a steady-state cardio** activity that you will perform between each interval push. These activities might include jumping rope, jogging or power walking. Once all exercises are completed, rest for **60 seconds** with a goal of completing two-to-three rounds total.

- |                           |           |
|---------------------------|-----------|
| + Steady-state exercise   | 2 minutes |
| + Jumping jacks           | 1 minute  |
| + Steady-state exercise   | 2 minutes |
| + Running with high knees | 1 minute  |
| + Steady-state exercise   | 2 minutes |
| + Lateral side hops       | 1 minute  |
| + Steady-state exercise   | 2 minutes |
| + Mountain climbers       | 1 minute  |
| + Steady-state exercise   | 2 minutes |
| + Jack squats             | 1 minute  |

2-3 times  
for full  
workout!

# CARDIO INTERVAL INTENSITY

Looking for a new way to challenge yourself? Introducing intervals into your cardio routine is an effective way to rev up your metabolism in a short period of time. A great way to take your cardio routine to the next level is by following the '30-20-10' training formula. No matter what form of cardio you're doing, introducing intervals can up the intensity AND the benefits.

Complete your cardio at a comfortable speed for **30 seconds**. Then pick up the pace and challenge yourself for **20 seconds**. Finally, for the last **10 seconds**, complete your cardio at the highest level possible.

Using running as an example, jog comfortably for 30 seconds, run hard for 20 seconds and sprint for the remaining 10 seconds.

## F.I.T. TIP

If you are struggling to complete five intervals in a row, use the 30-second round to do active recovery (i.e. walking instead of jogging). If you become light-headed, take a seat. Finish with a walk for the remainder of the time.

Repeat this five times in a row before recovering for 2 minutes by walking slowly or jogging. That's it! In only **12 minutes**, you've completed a powerful, heart-pumping cardio workout!

# F15 BEGINNER WORKOUT FOUR

In *F15 Beginner 2*, you will build on the exercises from *F15 Beginner 1* with added challenges following each move. Each exercise will be performed for **30 seconds** with a **5-second** transition between exercises.

Once you have completed all exercises, recover for **60 seconds** and start again with a goal of completing two-to-three rounds total!

**30**

seconds  
each

- + Alternating lunges
- + Static lunges (15 seconds per side)
- + Alternating knee lifts
- + Knee lift to reverse lunges (15 seconds per side)
- + Alternating butt-kickers
- + Staggered hinges (15 seconds per side)
- + Squats
- + Pulsing squats
- + Bird-dog left
- + Bird-dog elbow to knee left

- + Plank
- + Superman
- + Side plank (15 seconds per side)
- + Reverse crunches
- + Seated reverse crunches
- + Inverted bike
- + Mountain climbers

## F.I.T. TIP

Pay attention to the way in which the new exercises build on to the ones you've already learned. We will continue adding onto these moves as we move forward in the **F.I.T.** programme!

Rest 60  
seconds

Repeat  
2-3 times  
for full  
workout!

# F15 BEGINNER WORKOUT FIVE

This workout adds 15-second dynamic exercises to the base moves that you learned in *F15 Beginner 1*. Many of these exercises require rotational movements that will also activate your core and balance.

Each exercise will be performed for **45 seconds** and immediately followed by a **15-second** supplemental exercise. After completing each supplemental exercise, take a **10-second** rest before beginning the next exercise. Once all exercises have been completed, recover for **60 seconds** and start again with a goal of completing between two-to-four rounds total!

15-45  
seconds  
each

## F.I.T. TIP

Challenge makes changes!  
Completed two rounds last time?  
Take on three this time to get  
stronger and take the next step  
on your path to looking and  
feeling better.

Rest 60  
seconds

Repeat  
2-4 times  
for full  
workout!

# F15 BEGINNER WORKOUT SIX

This workout was introduced in *F15 Beginner 1* and incorporates hip rotation and some yoga style strength training. These movements are slower with more focus on balance and core stabilisation.

Each exercise will be performed for **60 seconds** with a **10-second** transition between exercises. Once all ten exercises have been completed, recover for **60 seconds** and start again with a goal of completing a total of three rounds!

**60**  
seconds  
each

Repeat  
**3 times**  
for full  
workout!

- + **Sumo squats**
- + **Downward dog to plank**
- + **Balancing deadlifts left**
- + **Balancing deadlifts right**
- + **Triangle abs left**
- + **Triangle abs right**
- + **Lunges left**
- + **Lunges right**
- + **Boat pose**

1 **teaspoon** olive oil  
140g cooked whole wheat pasta  
80g tomato and basil pasta sauce  
1 **tablespoon** dry grated parmesan cheese  
100g carrots  
Pinch cinnamon  
Pinch Italian dried herbs

**Men – (Approx. 559kcal)**

145g chicken breast  
1 **teaspoon** olive oil  
140g cooked whole wheat pasta  
100g tomato and basil pasta sauce  
1 **tablespoon** dry grated parmesan cheese  
100g carrots  
Pinch cinnamon  
Pinch Italian dried herbs

Put ¼ teaspoon of oil on the chicken with the Italian herbs. Add the sauce and cheese and bake at 180°C for 25-30 minutes until chicken is cooked through. Prepare the pasta and top with ½ teaspoon of oil. Steam the carrots, add a pinch of cinnamon, and serve.

## CAESAR SALMON WRAP

**Women – (Approx. 448kcal)**

1 wholemeal pitta bread  
150g tinned pink salmon  
2 **tablespoons** light Caesar dressing  
1 **tablespoon** grated parmesan cheese  
1 **handful** spinach leaves  
75g grapes

**Men – (Approx. 539kcal)**

1½ wholemeal pitta bread  
200g tinned pink salmon  
2 **tablespoons** light Caesar dressing  
1 **tablespoon** grated parmesan cheese  
1 **handful** spinach leaves

Fill the pitta with the leaves. Combine salmon with cheese and dressing and fill the bread. Serve with grapes on the side (women only).

## SPICY BEEF STIR-FRY

**Women – (Approx. 463kcal)**

1 **teaspoon** coconut oil  
150g lean beefsteak, cut into thin strips  
¼ **teaspoon** chilli paste  
½ **teaspoon** light oyster sauce  
100g cooked rice noodles  
100g stir-fried vegetables

**Men – (Approx. 527kcal)**

1 **teaspoon** coconut oil  
200g lean beefsteak, cut into thin strips  
¼ **teaspoon** chilli paste  
½ **teaspoon** light oyster sauce  
100g cooked rice noodles  
100g stir-fried vegetables

Heat a wok or large frying pan. Pour in the oil and swirl around the pan, then tip in the beef strips and chilli. After about 3 minutes, pour over the oyster sauce. Cook until heated through and the sauce covers the meat. Remove and keep warm. Stir in the vegetables, cook until softened, and serve with noodles cooked as instructed on the pack.
